

These tactics by the Sinclair Broadcasting Group and Chair are acts of desperate men trying to maintain their power at any cost.

The FCC is our line of defense for this country's Democratic Election Processes and Law of Free Media Broadcasting for all of the People of the USA. I implore you to tell the Chair to show the film in the theaters or to market it to the DVD market.

Let people pay to see their film just like Michael Moore did with "Fahrenheit 9/11", or at least to pay the market value Dollar amount for the Air time, just like any political group is to do, by our laws. And let them have to SAY these are paid for ADS.

I am frankly horrified at the irreverent and arrogant actions of these Bush supporters.

Please stop this unethical action. Thank You,
Sincerely, MB in SF
